Education

The Ohio State University
BS, Electrical and Computer Engineering

Columbus, OH
Expected, May 2028

Dougherty Valley High School
Diploma

San Ramon, CA
June 2024

Projects

- Analysis of FPGA Digital Systems
- Analysis of resistor networks, 1st order, and 2nd order circuits
- Designed MCU FIR & IIR Filters
- Designed Various Op Amps including both Inverting and Non-Inverting
- Basic Arduino programming including RGB LED circuits and temperature sensor circuits

(Website Portfolio with more details coming soon)

Work Experience

Aqua Medical - (Vapor-based endoscopic ablation technology)
Test Engineering Internship for R&D and Data Analysis

Pleasanton, CA
Summer 2026

- Categorically tested various device components, logging outputs of power and temperature
- Analyzed power and temperature data with excel, compiled results across hundreds of tests
- Used data analysis findings to write report for the company. Explained how power and temperature data was consistent across multiple devices and components.
- Worked with manufacturing office providing components and software, modified data logging software. (Stellartech)
- At manufacturing contractor, also tested new variables of machine such as mechanical priming and refresh rate of the system.

Diablo Valley College
Campus Director & Site Coordinator

San Ramon, CA
Summer 2025, 2024, 2023

- Led all operations for summer program at San Ramon campus
- Tailored course offerings and managed program webpage
- Managed communications with parents and resolved issues with course sign-ups
- Oversaw scheduling, supplies, and general operations
- Hired teachers in STEM field for expanded course offerings
- Trained new staff on course material and general summer program procedures

USA Soccer
Referee

San Ramon, CA
June 2023 – August 2024

- Officiated competitive youth soccer games (U9–U16) for both girls and boys within the NorCal region
- Used previous experience as a high level competitive soccer player for a California travel team

Skills

Tech: MatLab, Solidworks, CAD, LT Spice, Quartus Prime, C++, LaTeX, Adobe Photoshop, Microsoft Office Suite (Excel, PowerPoint, Word)

Coursework: Calculus, Statistics, Mechanics, Thermal & Fluid Physics, Chemistry, Digital Logic, Circuits, Systems & Signals
